Areas of Interest

- Rich/Complex Web Apps
- Hybrid Mobile Apps
- AngularJS, AMD/CommonJS, Automation/Build Tools
- UI Design, Typography, Art, Animations

Skills (Brief)

- Front-End Development of Web and Mobile: HTML5 / CSS3 / JavaScript
- Front-End Design of Web and Mobile: User Interface Design
- Back-End Development: Node.js, PHP, MySQL, NoSQL
- Ability to Work with Git, Agile, Various Design Patterns, REST, A/B Testing

Skills (Explained)

- Expert in Web-Based & Hybrid Web-Apps using HTML5 and Javascript: VanillaJS, Backbone.js, AngularJS + AMD, CommonJS, ES6, Cordova
- Expert in Web/Mobile UI Design and Development: HTML5, CSS3 (Sass + Modular CSS), SVG, Icon Fonts, Rich Typography, Attention to Colors, Automation Tools (Grunt, Gulp), Grid Systems and Design Patterns, Flexbox, Sprites, Style Guides, CSS Frameworks (Making my own OR Foundation, Bootstrap, etc)

- Back-End Development: PHP, Node.js, MySQL, MongoDB, Design Patterns and Methodologies, MVC, Ability to work with/on various Frameworks: Laravel, Falcon, etc.
- Designing, coding and working with REST APIs both on back-end and front-end using JSON, XML and cURL.
- Expert in working with RTL (Right-to-Left) languages (Persian, Arabic, Kurdish, etc) in both front-end and back-end.
- Expert in middle-eastern design principles, typography and culture due to many years of working (coding & designing) in the region.
- Working on A/B Testing systems and full understanding of the approach.
- Working and collaborating with other team members through Git.
- Understanding of UX principles and ability to work on designs based on those principles to make the software accessible and easier to use.
- Leader and mentor in understanding Startup ecosystems. Eager to work in Startup teams on projects with bleeding edge technology and new ideas.

Education

- B.S of English Translation
PAYAM-E NOOR UNIVERSITY, IRAN. 2007-2011
- Advanced Software Development with PHP/MySQL
SHARIF UNIVERSITY OF TECHNOLOGY, TEHRAN, IRAN. 2011-2012

Work Experience

- **Abanegan PTY Ltd.,** Tehran, Iran
SENIOR FRONT-END DEVELOPER | JUN 2013-CURRENT
 - Created an online music listening experience similar to Spotify exclusively for Iran, crated using HTML5 and Javascript (Backbone.js). It's an offline web-app with REST api and caching.
 - Designed and developed several websites for company's famous clients like Cinere UK and Danette Iran.
 - Supervise and lead the Design and Development team.

- **Acopio Ltd.**, Florida, USA (Remote / Dubai, UAE Office)
UI DESIGNER & FRONT-END DEVELOPER | MAY 2013-FEB 2014
Built a social network for professionals (like LinkedIn but more social) and it was presented it in GITEX 2013. Designed and developed the online app using HTML5 and Javascript.
- **ZigZagLab**, Tehran, Iran
CO-FOUNDER, SENIOR FRONT-END DEVELOPER | DEC 2011-NOV 2013
 - Established the first automated customizable newsletter system. Designed and developed both Front-end and Back-end parts of the app.
 - Winner of the UN's World Summit Youth Award. Designed the first version of Ladybug, a platform for empowering women in technology.
- **Yara Information Technology**, Tehran, Iran
UI/UX DESIGNER & FRONT-END DEVELOPER | APR 2012-APR 2013
 - Created city-wide apps for transport and bus transit for City of Tehran. Designed and coded the matching Online versions of the two.
 - Re-designed and re-imagined Tehran's online event ticketing system.
- **Programming.com**, Washington D.C., USA (Remote)
FRONT-END DEVELOPER & DESIGNER | FEB 2012-JUL 2012
Created a social network for programmers. Developed the online app from the ground up using HTML5 and Javascript (Backbone.js) and a Masonry layout. Since Backbone.js was in it's early stages, I overcame lot's of problems and obstacles.
- **Cubex**, Amsterdam, Netherlands (Remote)
PHP DEVELOPER | AUG 2011-DEC 2011
- **Tavana Resaneh Novin**, Tehran, Iran
PHP DEVELOPER | SEP 2009-OCT 2010
- **Armani Software Technologies**, Tehran, Iran
WEB DEVELOPER | JAN 2008-SEP 2009
- **Dadeh Gostar-e Kimia Inc.**, Golestan, Iran (Remote)
WEB DEVELOPER | FEB 2005-JAN 2008

Notable Activities & Awards

- Open Source software developer and contributor to other projects as well. A most notable project of mine is "jDateTime" a Shamsi (Jalali) calendar library in PHP.

- Startup Weekend Mentor (Software Design & Development) in 5 different Startup Weekend events in Tehran, Sari & Tabriz. 2012–2014.
- Columnist at Asr-e Ertebat Weekly, an IT broadsheet in Iran. I reviewed 15+ government websites in that column.
- Organized the 1st Iranian Responsive Design Conference in 2013 (#RWDCConf92).
- World Skills Championship medalist in Web Design & Development (National).
- Iranian National Programming Competition medalist in 2008.
- Co-founded a startup named 31Shab. It was a personal online journal. It received endorsement from national and international media and the work I did for that startup was the foundation for many of my projects since then.
- Teaching front-end design and development in Majid Online Academy in Tehran. My students learn how to develop web applications and websites using HTML5, CSS3 and Javascript. They also learn how to make hybrid apps using HTML5, Javascript and Cordova for iOS and Android.
