EXPERIENCE

VON91   07 / 2010 - Present
Founder + Dev Manager

VON91 is a tight-knit team that focuses on strategy, design and development for today's ever-evolving web. We believe in delivering masterfully crafted solutions that lead to richer online experiences for your customers.

Red Wing Shoe Co.   04 / 2014 - 08 / 2014
Sr. Front End Consultant

At Red Wing Shoe Company, I worked within a multichannel team of backend and front end programmers. While there I helped build browse and transactional components for the new version of their Heritage site. I also helped implement tools like Grunt, a JavaScript task manager to improve their front end workflow.
Technologies Used: CSS3, HTML5, JavaScript, jQuery, Photoshop, Intershop, Visual Studio, Grunt, Foundation
Notable Projects: Red Wing Heritage Browse and Transactional (Desktop and mWeb)

Beacon Hill Technologies   10 / 2012 - 08 / 2014
Sr. Front End Consultant

Working on projects with brands and agencies like Red Wing Shoe Company, AIMIA, Subaru, Delta, FedEx, Target, OLSON and kidrobot.

Aimia Inc   02 / 2013 - 10 / 2013
Sr. Front End Consultant

I worked on a small team of Front End developers and lead the development of Subaru Foundations, a .NET application used by Subaru Dealerships and employees.
My contract was extended multiple times to work on marketing projects for Delta and FedEx.
Role: UX and UI Integration, Front-End Development
Technologies Used: CSS3, HTML5, JavaScript, jQuery, Photoshop, Illustrator, AJAX, ASP.NET, C#, Microsoft Visual Studio, .NET MVC, SourceSafe, Microsoft SharePoint, Asana
Notable Projects: Subaru Foundations (Employee Loyalty and Training Application) Delta (Email Templating) FedEx (Employee Incentive Website)

Olson   08 / 2012 - 02 / 2013
Front End Consultant

While at Olson I worked on campaigns for Target and KidRobot. I was recruited to work on "Falling For You" a desktop and mobile campaign for Target. Upon completion I was extended to work on campaigns for Kidrobot and later began managing target's iOS and mobile web experiences.
Role: UX and UI Integration, Front-End Development
Technologies Used: CSS3, HTML5, JavaScript, jQuery, Photoshop, AJAX, Jira, Eclipse, PHP, XML, iOS
Notable Projects: Falling For You (Desktop and mWeb) Target Mobile Refresh (iOS and mWeb) KidRobot (Website Templating)

TempWorks Software   03 / 2012 - 06 / 2012
Web UX Engineer

I worked in a team of developers and designers helping build web application software for temporary staffing agencies across the country.
I helped develop fast cross-browser web pages, created Wireframes and Mockups, design and develop UI and UX solutions, and created fast rapid prototypes and proof of concepts.
Role: UX and UI Design, Front-End Development
Technologies Used: CSS3, HTML5, JavaScript, jQuery, Photoshop, Illustrator, SVG Graphics, AJAX, ASP.NET, C#, Microsoft Visual Studio, .NET MVC
Notable Projects: TempWorks Bridge (Internal Support Application).

Fusion Room   05 / 2011 - 04 / 2012

Interactive Web Developer

Fusion Room is an expert development house that partners with creative people to build digital experiences for the social, mobile, and web. While working there I helped develop high traffic websites and applications.
I also helped Develop fast cross-browser web pages, create Drupal and WordPress themes, and worked closely with design teams to strategize end user experience.
Role: Web and Print Design, Front-End Development
Technologies Used: CSS3, HTML5, JavaScript, jQuery, Photoshop, Illustrator, PHP, Drupal, WordPress, Sitefinity, AJAX, ASP.NET.
Notable Projects: Cici's Pizza (Website) SunnyD: Drink Up & Download (Web Application) SunnyD: Cover Yourself (Facebook Application) Minnesota Interactive Marketing Association (Website) Polaris Industries (Website Templating)

Hennepin County   08 / 2010 - 04 / 2012
Contract Designer and Web Developer

I designed and developed solutions that allowed Hennepin County JDAI to share information about the impact JDAI is having on justice reform in Hennepin County.
Role: Web Design, Front-End Development, Back-End PHP Programing.
Technologies Used: CSS3, HTML5, JavaScript, jQuery, Photoshop, PHP, WordPress.
Notable Projects: Hennepin County JDAI (Website)

City of Brooklyn Park   06 / 2009 - 08 / 2010
Front-End Web Developer

During my high school years, I worked at the City of Brooklyn Park. I helped design teen advertisement and keep their website up to date with new content and features.
Technologies Used: CSS, HTML, Photoshop, Illustrator, WordPress, CMS Made Simple.
Notable Projects: The Hub (Internal communication tool for Council Leaders and Community Action Groups) Brooklyns Youth (Website)
