Adam Gloor
Web Developer

More contact information needed

Chicago, IL

Good Summary of Skills

I am an experienced and professional web developer with substantial knowledge in all aspects of web development, from front-end design to back-end dynamics. I'm dedicated and diligent in the workplace, with a plethora of experience working in teams and remotely. I contributed to over a dozen web projects and apps. I'm well versed in multiple programming languages and web frameworks. I constantly devote time to study new concepts and hone my craft.

Authorized to work in the US for any employer

WORK EXPERIENCE

Web Developer
Personal Projects   -   Chicago, IL   -   2013 to Present

Responsibilities
Personal Projects
Github.com/agloor

Dense & Keyword-rich, very scan-able

• Full Stack Developer of 3 fully dynamic VB.Net websites that incorporate: user authentication, user authorization, and Microsoft SQL Server to collect(SSIS), analyze(SSAS), and view(SSRS) data.
• Created advanced algorithms for calculating distance metrics from multiple instance variables and another for calculated 1040ez taxes with a simple GUI.
• Incorporated site registration, login, and master admin data pulled and stored in Microsoft SQL Server.
Keep up to date with all new technologies and languages such as (Polymer web components, Bootstrap, Less).

Product Design Intern
Applied Systems   -   University Park, IL   -   May 2014 to August 2014

Responsibilities
• Responsible for designing & developing a new documentation database using Microsoft Access for the frontend UI and MySQL for the backend.
• Designed wireframes for the front-end UI of the database, improving the UX enough to eliminate the need for in house training to use the system.
• Worked in an agile environment.

Good breakdown of work performed

Accomplishments
I successfully designed, created, and implemented a new database for storing documents originally in word format to SQL.

Skills Used
Microsoft SQL Server, Microsoft Access, Visual Basic

Web Developer (Co-curricular)
IHeart Studios   -   Bloomington, IL   -   January 2014 to May 2014

Responsibilities
• Responsible for enhancing the look and functionality for a website that allows users to sign up and browse art classes.
• Drew wireframes for designing the layout and navigation for the website.

Consistent formatting throughout resume

• Developed the front-end layout with HTML5, CSS3, and JS.
• Constructed website navigation on the basis of simplicity and ease of use.
• Incorporated features such as social media and a newsletter subscription form to the site to optimize traffic, page views, site "stickiness" and user experience (UX).

Accomplishments
Full stack developer for the site

Skills Used   *Again, good list of keywords*
HTML5, CSS3, Javascript, Jquery, Wordpress, Adobe Illustrator, MySQL

Business Analyst (Co-Curricular)   *Clearly defined accomplishments,*
Firehouse Pizza   -   Normal, IL   -   August 2013 to December 2013

Responsibilities   *I know what you did at this job!*
-Used the Tradition SDLC methodology to propose a new system that would automatically update the business's inventory database each time an order is entered into the point of sale system
• Assessed project feasibility by performing cost-benefit analysis, taking into account the tangible and intangible benefits/costs of the new system
• Gathered system requirements by performing extensive open-ended and closed-ended interviews with the end users
• Created PIECES/SWOT/CSF/Value Chain analyses to first identify business needs
• Used MS Project to manage schedules and collaborate with different teams at Firehouse Pizza
• Designed data flow diagrams(DFDs) & entity relationship diagrams(ERDs) using MS Visio and MS Project
• Wrote detailed documentation and proposed implementation plans for the new system to the end users

Accomplishments
Conducted extensive analysis on their current inventory content management system, proposing a new system to allow for better timing on re-orders/re-stocking saving sunk inventory cost. Wrote 35 page analysis documentation.

EDUCATION

BACHELORS OF SCIENCE in Business Information Systems w/minor in Economics
ILLINOIS STATE UNIVERSITY - Normal, IL
2010 to 2014

SKILLS

HTML5, CSS3, Javascript, jQuery, .Net, Visual Basic, PHP, Django/Python, SQL, Visual Studio, Bootstrap, Microsoft SQL Server, Certified Scrum Master, Business Analysis, Requirements Gathering.

LINKS   *Great addition to any resume, provide examples of your work whenever possible.*
