PROJECTS

Property House
URL: http://www.propertyhouseuae.com
Description: Website created in WordPress by integrating a custom theme that allows its users to view all listings posted by Property House. Users can use the search function, and Admins can insert, search, update, or delete a property listing. Photoshop, Illustrator, HTML5, CSS3, Bootstrap3, JavaScript, jQuery, PHP, and WordPress were all used.

Mortgage House
URL: http://www.mortgagehouseuae.com
Description: Site was created in WordPress by integrating a custom theme that allows users to view information about personal loans, businesses, etc. It also includes an online form for pre-approval and calculation components to calculate for mortgage loans. Photoshop, Illustrator, HTML5, CSS3, Bootstrap3, JavaScript, jQuery, PHP, and WordPress were all used.

Free Agent Picks
URL: https://www.freeagentpicks.com/
Description: Fantasy sports site for baseball, hockey, football, EPL, and MLS teams. Designed for U.S. audience with user-friendly interface. Site uses PHP, JavaScript, jQuery, MS SQL, HTML5, and CSS3.
