## Employment

**OSU Open Source Lab, *Software Developer*** — 11/2013 - Present

Works with tools such as Pelican, Drupal, and Django to create and manage project sites, as well as maintain osuosl.org. Also runs DevOps Bootcamp, an outreach program to teach students basic software development skills.

**Puppet Labs, *Engineering Intern*** — 06/2015 - 09/2015

Worked with the Node Management UI team on Puppet Enterprise Console, using Emberjs (javascript) for the front end and Clojure for the middleware.

**Web design work**

arbitrary-converter.herokuapp.com – Flask app to convert integers between bases

osuosl.org – Pelican website with a custom theme

## Leadership

**OSU DevOps Bootcamp, *Leader*** — 2014 - present

Led a comprehensive systems engineering curriculum designed to bridge the gap between skill acquired at university and those used in industry. devopsbootcamp.osuosl.org

**OSU Linux Users Group, *Vice President*** — 2014 - present

Organized weekly meetings, mentored students in FOSS involvement. lug.oregonstate.edu

## Academics

**Oregon State University** — 2013 - present

Bachelor of Science in Computer Science Honors College

Expected graduation: June 2016

## Speaking

**Open Source Conference (OSCON)** — 07/2015

"Sass: What it is, how it's used, and why it's so Syntactically Awesome"

**LinuxFest Northwest** — 04/2015

"Linux Fundamentals"

**Seattle GNU/Linux Conference** — 10/2014

"Intro to Web Development", "Sass"
